

Premier Continuum and ParaSolution announce a sponsorship supporting the ACP to promote the Business Continuity community and foster connection among its practitioners.

Premier Continuum Inc. (PCI), a leader in the field of Business Continuity, is pleased to become a sponsor of the Association of Continuity Professionals (ACP), a world's premier association of resiliency professionals, nurturing its mission of shaping and supporting the global community of resilience practitioners.

"With our increasingly global involvement in shaping the industry and educating its professionals, we saw supporting ACP as a natural fit. By helping ACP promote the art and science of business continuity, we elevate how we carry out our own mission. We can contribute to ACP's thought leadership while deepening and widening our network as well as gaining precious insight into the practice," says Marie-Hélène Primeau, Executive Vice-President of PCI.

PCI's professionals regularly speak at various conferences (BCI World or forums, DRJ conferences, DRIE conferences, Continuity Insights conferences, etc.). Their expert advice is also frequently sought by Gartner analysts, and they voluntarily contribute to several committees related to BCI, TC 292, CSA Z1600 and CSA Public Safety, among others.

Supported by its certified BCI and ICOR trainers, PCI has delivered hundreds of classes North America and trained more than 500 professionals over the years. Supporting ACP enables PCI to leverage and further invest in its strong educational focus.

PCI is excited about supporting ACP, and looking forward to actively participating in enriching events, knowledge sharing, networking, and the expansion of the business continuity sphere.
