## New CBCI Certification Course based the GPG 2018 Edition.

The course offers a solid description of methods, techniques, and approaches used by BC and Resilience professional worldwide to develop, implement and maintain an effective BCM programme.

### Key features:

1. Based on GPG 2018
2. Aligned to ISO 22301, the international standard for BCM
3. Modular approach – six modules, each one based on one of the six Professional Practices that make up the BCM Lifecycle.

Delivered by BCI's trusted Licensed Training Partners and Approved Instructors.

5. Provides practical insights to good BC practice and expertise by learning from some of the best BC and resilience professionals in the industry.
6. Equips you with knowledge and understanding you require to be able to practice BC in line with GPG 2018 Edition
7. Teaches you not just the 'what' but also the 'why', 'how' and 'when' of good BC practice.
8. Prepares you for the Certificate of the BCI examination, which leads to an internationally recognised credential and post-nominal designation in BC (CBCI), and is the launching pad for Certified Membership of the BCI.

Feb 10-12 | May 11-13
